CoreStick file for use in DepthPic. It is a text file that will look something like this:

Depth Units
X
Y
CoreID
# of layers
Depth first layer begins (always 0.0 feet)
Depth first layer ends
Color
Width
Depth 2nd layer begins (same as depth first layer ends)
Depth 2nd layer ends
Color
Width
Depth 3rd layer begins (same as depth 2nd layer ends)
Depth 3rd layer ends
Color
Width
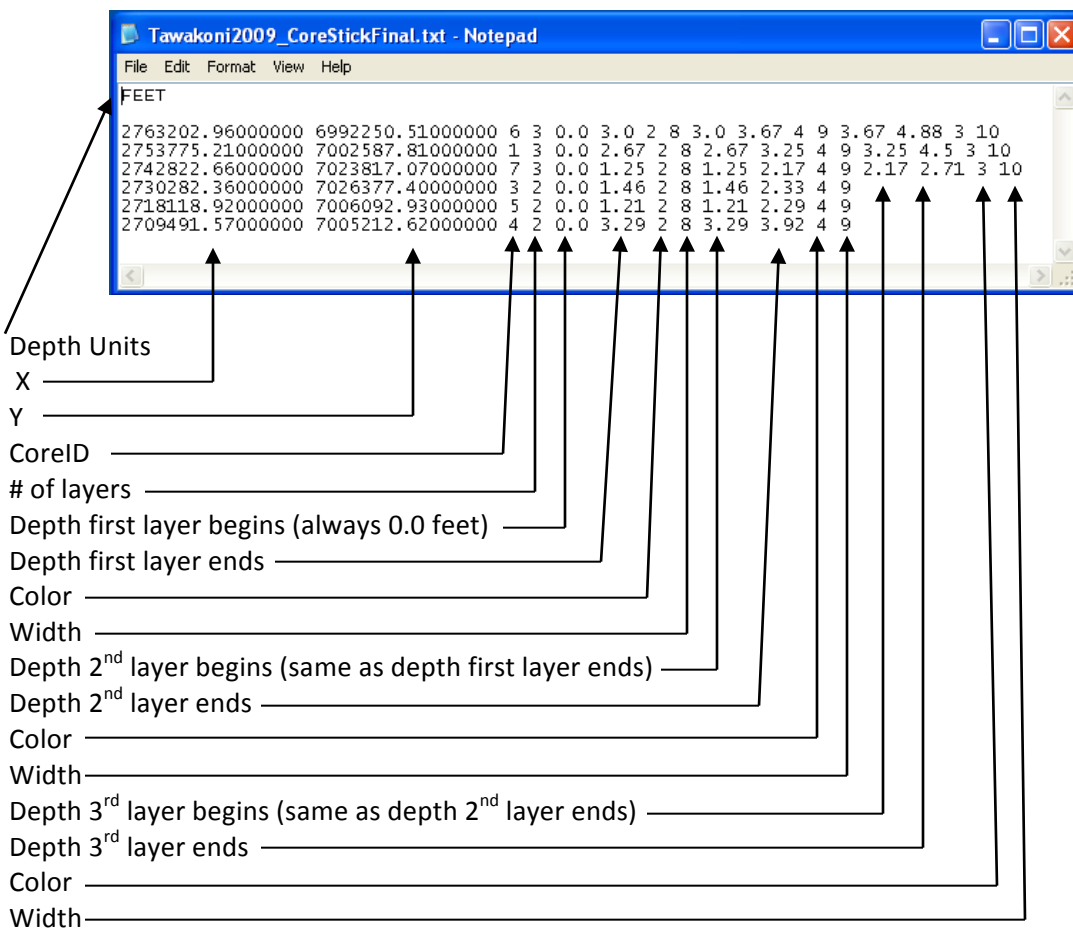

Note: x y coordinates are in feet state plane projection

Note: colors can be coded 1-10

In order from 1 (top –red) to 10 (bottom – purple), the color codes display in DepthPic as shown below:
